

ZELDA CP-100

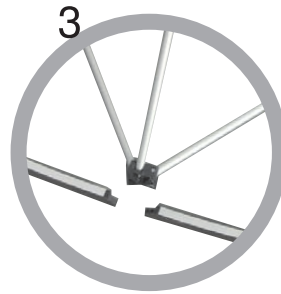

Assembly Instruction

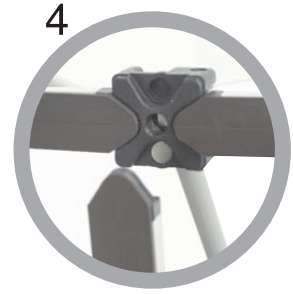

1
Remove silver anodised aluminium pop up frame from carry bag.

2
Erect structure ensuring table top locating studs are on the top.

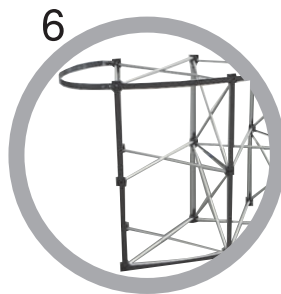

3
Affix horizontal magnetic rails (curved).

4
Affix vertical magnetic rails (straight).

5
Affix flexible magnetic rails to form curve shape, either side of pop up frame.

6
The assembled structure should now look like this.

7
Unroll the graphic and work your way round the front of the structure, ensuring the magnetic tape on graphic rear, affixes to exact position on the vertical magnetic rails.

8
Open up the wooden table top and lower onto the four locating studs located on the frame top.

9
Your counter is now ready for all types of promotional work. To dismantle the pop up counter, reverse the assembly procedure. Ensure graphic is rolled up - image side facing outwards.

To dismantle the pop up counter, reverse the assembly procedure. Ensure graphic is rolled up - image side facing outwards. DO NOT FORGET TO UNCOUPLE HOOKS!
